

# What is the role of the individual in creating and sustaining change? By Winston Wright

Social Security provided safety for all kinds of citizens during the great depression, and is still implemented today.

The Civilian Conservation Corps (1933 to 1942) provided jobs and stability to young unemployed men.

The New Deal was a collection of economic programs made to combat the tough times of the Great Depression.

F.D.R led the country during the great depression, restoring hope in the American people.

## **What is the role of the individual in creating and sustaining change?**

**- F.D.R wanted change for himself and led the U.S through his own case of polio.**

**-F.D.R also had a strong connection with the American people during the great depression, and was able to provide hope back into the state of America.**
