

Environmental Impact

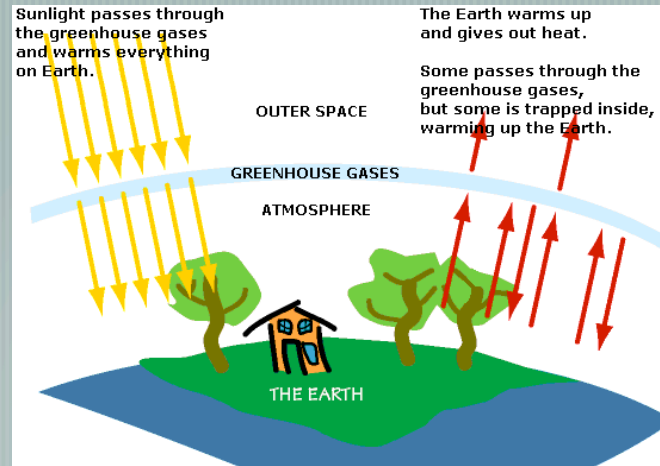

"Both natural processes and human activities are capable of changing the environment."

Candace Blocker & Brianna Perrin

Hmmm. What Is It??

- [Natural Processes
- [Human Activities
- [Pollution
- [Greenhouse gases

Example Of How It Works

Negative Impact

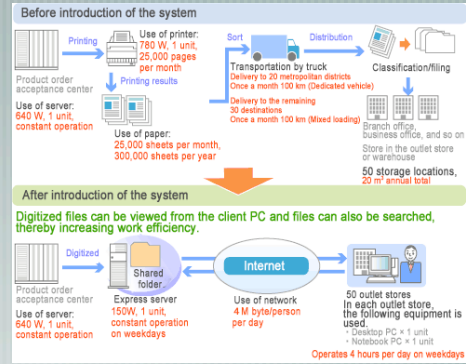

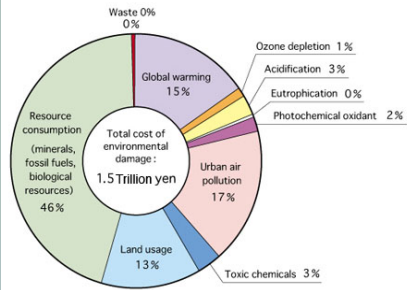

- [Pollution KILLS!
- [Hurts the environment!
- [Animals can die! :(
- [People can get DISEASES!

Positive Impact

- [It gets **WARMER!**
- [Less snow/colder days in the winter!

Endless Cycle

Figure 1: Economic Assessment of Environmental Issues Resulting from Economic Activity in Japan. (Yen/year)

Animals

— [Do you want the polar bears to lose their homes and die?

— [Do you want them to become extinct?
