

Out of 30 economically developed countries, the US ranks 25th in Math, but first in overall spending.

**1 in 4**

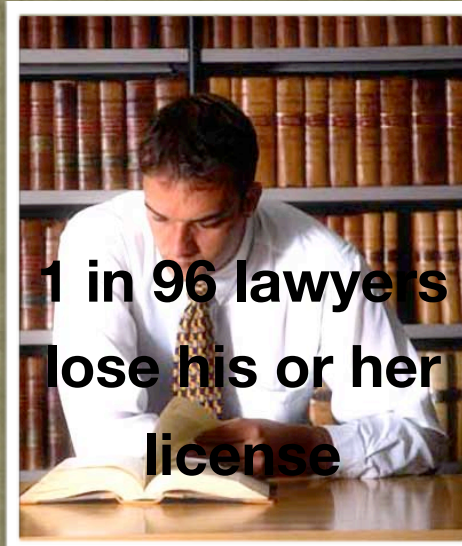

American students who start High School will **never finish.**

68.3% of High School graduates go on to a 4-year college. Of that 68.3%, only 55% will graduate within the first 6 years.

**1/3**

of 4th graders in the US can read at grade level

**1 in 96 lawyers lose his or her license**

**1 in 57 doctors lose his or her license**

**1 in 2500 teachers lose his or her license**

# EDUCATION IN THE US

## A NATIONAL CRISIS

Students in the US continue to fall behind in education. If we do not completely re-design the way our system works, our students will not be able to compete in the global economy.
