Teen Pregnancy In The U.S

- Teen pregnancy is a high cost
- The teenage birth rate is massive, especially among the Black & Hispanic population
- Reported at least 1 million pregnancies per year

Data

- 78% are unintended pregnancies
- 35% receive an abortion
- 84.3% abortions by an unmarried woman

Popularity

Decline

- People say...

*Teen pregnancy rates declining is good news.
Abortion rates declining is NOT good news.*

Why?

There are more children in the world that are being born everyday making it more costly for the rest of us.

Abortion
