

# Micah's Q4 Artwork

A series of horizontal stripes in various colors including yellow, green, blue, purple, orange, red, white, and light green, located at the bottom of the page.

This project took a little while to figure out, with a lot of erasing yet the result is this beautiful project in which I am proud of.

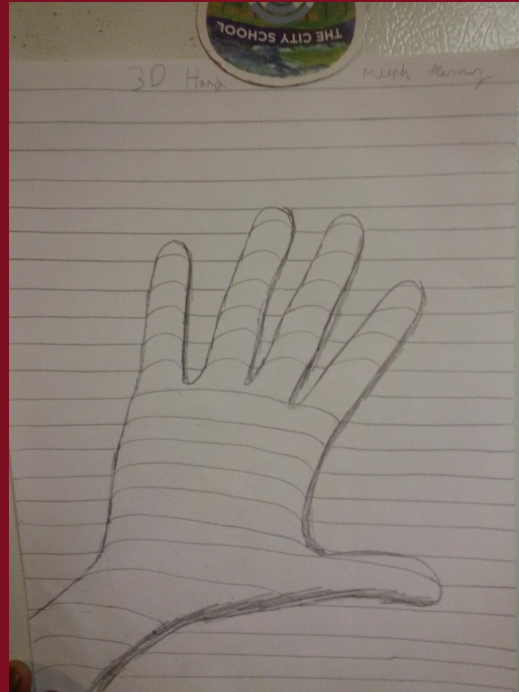

This is the project I am most proud of regarding the entire school year because it took me a while to finish with all the detailing and it was very fun to draw

This project was very simple yet elegant and is something interesting to look at, this was my best animal drawing this year.

This project was something fun I came up with to end my SLA art career. It is very simple yet brings out the hand in a very cool way.

Thank You for Viewing!
