

MUSIC

Why I did I make the slide the way I did?

I made the slide the way I did because Music is my passion. I enjoy playing piano and making song covers. I always listen to music and also enjoy writing songs. **Music is my passion.**

I made the slide empty and plain because I think that it should show the most important things that represent music and It should be in black and white to be classy. I tilted some of the pictures in my slide to make it pop out a little.
