

CHANDREA'S MAGAZINE

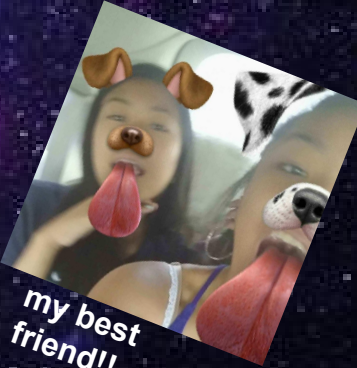

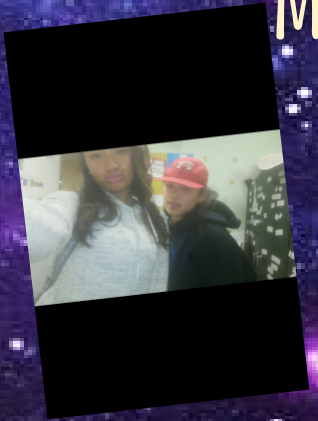

I like to play sports

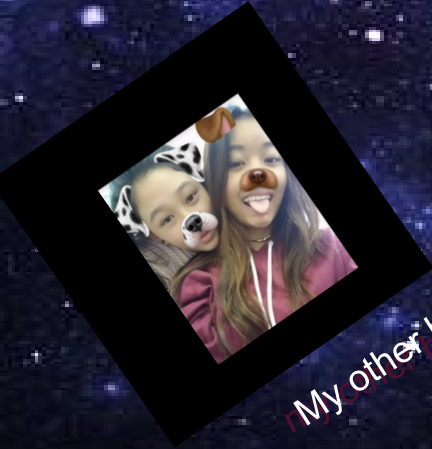

I like different genres of music..

My other best friend
my best friend

my best friend!!

During my design process I thought it would be cool to add pictures to show the timeline of my ME MAGAZINE. I decided to look through my phone and put the pictures from us into my slide. Some of the pictures reflect on the things that I like to do such as sports and listening to music. Some of the sports that I play are soccer, volleyball, football, and basketball. The different types of music that I listen to are bands (Green Day, Panic at the Disco, etc.) I listen to rap, hip hop, and other genres of music. This slide also shows my friends and how we always stick together from thick and thin and we always have each others backs. The 2 best friends that have been with me are Alina and Christina. I have known Alina since 4th grade and my other closest friend is Christina who I have known since 2nd grade. We love each other and consider each other as sisters. I hope that you liked my slide that I had created. (:
