Shaheed Williams

Witty, comical, cunning, and smart

Experienced joy, sadness, peacefulness

Experience death, drowning, heights

Wants to be successful and become a doctor

Color, Font, and Poem

First thing that one would notice is the color of the slide. I learned that the colors were supposed to be eye appealing. I learned that contrast and space have something to do with colors.As a result, I thought of the most common favorite color which is blue. There's other colors like white and dark blue, to add a little variety without the slide being too colorful. I also made the font huge so that everyone in the room could be able to read my slide. The font I chose was *Roboto* and made the color white to be able to read easily. I am passionate about English Language Arts and I like to write. That is the reason why I inserted a poem that I made.
