Capstone Remodeling
2020

By: MAMADOU SAMASSA

Introduction

What is my Capstone ABOUT

- ❑ Remodeling basement space in my household
- ❑ Sketching
- ❑ Applying Creativity
- ❑ Safety

Why did I choose this project?

- ❏ Big Change
- ❏ Critical thinker
- ❏ Project I always wanted to complete
- ❏ Redecorating space

SLA Core Values

Inquiry

Inquiry was demonstrated from the beginning of the journey, I address this core value while doing research on creative ways of remodeling a dark and uncomfortable place. I challenged my self by asking questions that push me to work towards the progression of my ideas.

Research

The research was illustrated through the use of various websites which include marketing sites, home renovation websites, and many informational and instructional videos.

Collaboration

The collaboration was demonstrated through this Capstone when I had a few helping hands aid me in doing the more tricky task such as nailing screw into the drywall, taking out the trash, and spackling.

Presentation

The presentation I tried putting forward a video blog of my progress with the basement renovation Capstone

Process

Steps to complete Capstone

- Research
- Labor
- Video recording
- Mentoring
- Sketching

Obstacles & Overcoming

- Covid-19 (Biggest Obstacle)
- Mentor availability
- Missing supplies (Covid)
- Time

Resources that helped complete Capstone

- Mentors
- Braskem
- Iphone
- Homedepot

Reflection

How do I create a safe, and comfortable space ?

Different Stages

# Photos & Videos
