Song 1

Song - Maps

Artist - Maroon 5

Why - I interpret this song as a breakup, and this song in my mind would be perfect from Birdie's point of view to Joaquin during the period that she is trying to get back together with him.

Connected Lyric - The lyric "oh baby why did you run away" fits perfectly to me because Joaquin ran away from Birdie and she doesn't know why he did.

Song 2

Song - I think I'm in love

Artist - Kat Dahlia

Why - This song is about someone being in love again after either breaking up with someone or being broken up with. I think this song would make sense towards the end of the book from Grace's point of view.

Connected Lyric - The lyric that I think fits into the story from this song is "I didn't think it would be true, let alone that it would be you." Grace didn't think that she would fall in love ever again, and she definitely didn't think it would be Rafe.

Song 3

Song - Changes

Artist - XXXTentacion

Why - This song is about somebody that the singer loves changing into something the singer doesn't love like they used to. I think this song would fit in in the part in the book where Claire and Maya fight and break up.

Connected Lyric - The lyric that I think fits the best here is "Baby I don't understand this" Because Claire doesn't Really understand why Maya broke up with her.

Song 4

Song - The knife in my back

Artist - Alec Benjamin

Why - This song makes sense in the context of Grace and Max's relationship.

Connected Lyric - "I was just surprised at how you turned on me so fast." connects to the meeting Grace's parents had with Max's parents where Grace saw that Max wasn't on her side.

Song 5

Song - Anxiety

Artist - Blackbear

Why - This song would make sense from Grace's point of view when she feels untethered when peach/Milly is gone.

Connected Lyric - The lyric that connects best to me is "I can't eat, I can't sleep, you give me anxiety." Either Grace can't take care of herself well because Milly is with another family and she feels anxious that she picked the wrong family for milly

Song 6

Song - Ignite

Artist - K-391

Why - This song would make sense during any scene with Maya and Claire, Before the fight or after they got back together.

Connected Lyric - The chorus of "One touch and I ignite" Fits in because Maya feels better when Claire is around.

Song 7

Song - I like me better

Artist - Lauv

Why - This song could be from any character's perspective. I like it from Maya's perspective where she likes her life a lot better when Claire is with her.
