Hurry Up and Flip the
Page

“Dear readers.” I'm writing this magazine to share times when i was tremendously frightened. But first, i wanna introduce myself. My name is Amin Mohamad and im 14 years old. I'm a middle child. My favorite activities to do are play video games, assist others, restore matters, and have fun with my siblings. I'm from palestine and i went there 4 times. Hopefully i'll be able to go a ton more. I was born and raised in Philly. I speak two languages which are English and Arabic. I'm trying my best to learn Spanish as well! A place i really want to go to is Los Angeles. It looks like an amazing place to visit. It has a beautiful beach that looks fun to play on with my family and friends. But the main reason i want to go there is because that's where my favorite game, GTA 5 takes place. **Back to what the magazine is going to be about. My Magazine is going to share my experiences when i was troubled big-time. For some weird reason, i've been worried many times to a high level but the most recent one was the worst of them all. It was as bad as it could get but thankfully, it got resolved in a small amount of time.**

Gaming. Gaming is my favorite passions. I game as much as i could and i play as many games as i could. Many reasons why i love gaming so much is because it relieves stress. To me, gaming relieves stress the easiest way possible. It also does it and at the same time, i'm having fun. Gaming allows me to spend and have an amazing time with my friends and helps with communicating with one another. Gaming opens the door to meeting more people whom sometimes become my friends. Gaming also killed the long boring hours when we weren't able to leave our homes thanks to Covid - 19. Gaming also gives us things to do while my friends come over. It gives us a good time, and leaves us with amazing memories which grows more and more the more we play.

Gaming did not only help me and many others, it got us irritated and angry. All the times we would lose for brainless reasons. When we would be so close to winning and our controllers would die. Many other awful reasons that would cause us to rage, get irritated, and angry. But after a while, it'll also just be

A nice memory to have and talk about.

Playing video games also is really expensive. Battle passes we would be desperate to buy and new controllers to replace the ones we broke when we ragged. what is most expensive about gaming, is buying a new console. We need new consoles to play better and newer games that we might not be able to play on our old consoles. Being upgraded to a newer console is 100% worth it. The graphs difference blows you away and unwrapping and opening it up is an amazing experience.

Gaming also helps with decision making. While playing some video games, you need to make a really hard decision. This is really common in the gaming industry. After a while of playing video games. You start to have a better understanding of what would be a better decision to make. Decisions start getting easier to make and making the right decisions starts to increase.

Your multi tasking starts to get better. When gaming you have many things to do at once. You have to look around for enemies, better weapons, and much more things at once. When you first start gaming, your multitasking isn't as good. Enemies have a higher change on eliminating you but after a while. Your multitasking skills increase, and you start getting more and more eliminations.

These are many reason why gaming is one of my favorite passions. It helps in so many ways. To me, nothing else helps as much as gaming does. Gaming helps with stress, multitasking, decision making, and many more important things. Gaming also gives me something fun to do when it's boring and gaming help a ton while we weren't able to leave our homes. Gaming also gave me and many others amazing memories.

My Favorite Game

My favorite game is GTA 5 which is short for Grand Theft Auto Five. It's really fun to play alone and with friends. It's also one of the most famous game. Its rated around a 9/10 or 90%. I and many of my friends would rate it a 10/10 which is 100%. If you don't know already, Gta is about three friends. Michal, Trevor, And franklin. All have crazy lives. And all do crazy things. Each do extremely illegal things for a living. They all ended up teaming up and robbed a bank. It turned out great and they got really rich.

The Dreadful Airport

I'll be talking about a time i was really anxious and nervous. I really wanted to go back to my country, Palestine. I love going there but unfortunately my family wasn't able to go this year. I really wanted to go so i begged and begged my parents. They finally said yes so i tagged along with a really close family friends. One of the kids is my age so it was fun traveling with them. His name is Ali. It was amazing getting there, and being there. I met a lot of new people and i made many new friends. I had the most perplex time and it was hard leaving. on the way back to philadelphia was terrible. We had a hard time getting to the airport which caused us to arrived late! We checked in our bags but mines was overweight. It was overweight but 3 kilos. We didn't have time. The plane was getting ready to board and we are still far away. I opened my bag and threw the first things i saw. Shoes, Pants, Shirts, etc. The bag was still 1 kilo overweight but the lady let the bag go through. At this point were supposed to be at the gate so we started running . It felt like years to get there. The airport was packed and it was hard moving around crowns of people while pushing a stroller and pulling a suitcase. It was also really loud and it was hard to hear any thing i was told. My heart was pounding and i was really scared. I calmed down once we got closer and closer to the gate. when we finally arrived to the gate, Ali didn't have his passport. The plane was already boarding and we didn't know what to do. We didn't have time either. I saw a worker at the airport. Wearing a suit and a nametag. He was Looking around while looking at a book. That book was a passport! I ran to him as fast as i possibly could. Thank god it was Alis. We got onto the airplane and on top of all this mayhem. I had the worst seat in the plane. It was the middle seat in the middle row of the plane. I had no space at all. It was hard going to the bathroom.

Epecially when they were sleeping. When we finally landed in Philly. We made our way to collect our suitcases. But of course, nothing is gonna be easy for us. Everyone got there bags on the baggage carousel instantly. But ours took more than an hour to come out. From this terrible experience i had. And the fear i feared. I now learned that i have to be more reasonable. Not for myself. For others. I learned that i have to be more on top of things. Even if it's annoying. It's still worth it and i don't ever wanna go through that again.

The Spanish Flu

I love learning about crazy things in our history. I really want to learn about the spanish flu. It killed MILLIONS. Its estimated to be 50 million deaths caused by the spanish flu. I want to learn about what caused it. And how it was cured. I wanna learn as much as i can about the spanish flu since it killed so many people.

**Do you rage?
Save hundreds
For the small
amount of Only
\$15.99**

**Have annoying
siblings. Always
know your ice cream
is safe with the
icelock. Only \$19.99
including batteries.**

**Does your crusty
brother always play
on your Playstation
without your
permission. Fix that
for cheap, \$80.99.**
