Subject: [Action] Save the 3rd St Bike Lane - Come to OTIS' Open House March 6 from 6-7:30 PM

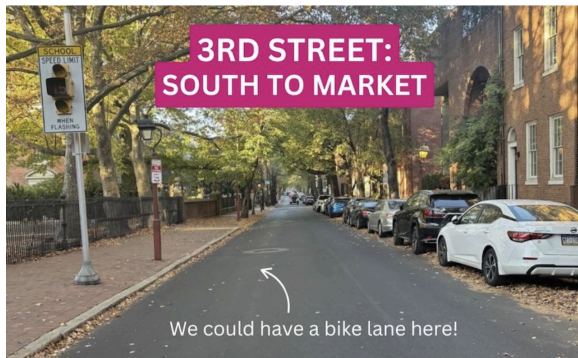

Body

Tell OTIS you support a 3rd Street Bike Lane from South St to Market St! Make your voice heard at the open house on **March 6 anytime between 6–7:30 PM at Old Pine Community Center (401 Lombard St).**

We need your support because a 3rd Street Bike Lane would:

- Calm traffic by slowing the speed of cars, improving safety for pedestrians, cyclists, and people driving cars;
- Reduce crossing distance for people walking and in wheelchairs;
- Provide a buffer from noisy car traffic for people on sidewalks.

Multiple community organizations, including Queen Village Neighbors Association, Delancey Square Town Watch, and Old City District, have requested traffic calming on 3rd Street because of speeding and reckless driving.

We need your help urgently because some neighbors are working to stop OTIS from building the bike lane. To ensure the bike lane is built, all we need you to do is comment and complete an exit survey at the OTIS open house on March 6 anytime between 6–7:30 PM at Old Pine Community Center. **No need to stay the whole time.** You can also sign our [petition](#).
