

Love Canal Toxic Dump

Who: Residents of New York New York
What: Love Canal Toxic Dump
Where: New York in the city of Niagara Falls
When: 1920's - 2004
How: A Company took over land that was supposed to be used to go into the Niagara Falls river, and used it as a toxic waste dump. It was also used as a land fill until a school district brought it for a dollar. Major health problems occurred in the region and a local mother started to petition to figure out what happened in the region.
