

# Anniston, Alabama PCB Poisoning

10 Q. Okay. Did anyone ever tell the  
11 residents of Anniston that Monsanto had  
12 taken samples of mud and water  
13 downstream from the plant in Choccolocco  
14 Creek and Snow Creek in 1968 and 1969?  
15 A. Again, there was no rational reason for  
16 talking to anybody, so they didn't do  
17 it.  
18 Q. Okay. The answer is no; is that right?  
19 A. That is what you heard me say. We  
20 didn't do it.

Monsanto manufactures **Polychlorinated biphenyls**

40 Years of toxic waste dumping    1971 Production stopped    1976 Chemical was banned

1927
