Clayton v District of Elmo Brought to a higher court.

Strohman v District Appeal denied.

Survillo v District of Topeka Appeal granted. July 11th.

Nguyen v District of New Orleans Appeal denied

MORE STUDENTS NEED TO TAKE MORE TIME OUT OF THE DAY FOR SCHOOL WORK

It takes a village to raise a child or a high quality university to raise a doctor. It's no surprise this year that Blanco Academy has yet again come in with our nation's highest GPA averages and no surprise that once again Amistad High came in with the lowest scores and will thankfully be shut down.

Schools of minorities have dropped their place from last year and with a huge impact. They drop the national average by 37 points. President McCain is working with several school districts to find a better solution than closing down failing institutions. Better suited curriculums are being instated that will prepare children for well suited occupations earlier. They will be ready to work earlier than before and able to put money back into the economy.
